## 1255

Made from four grape varieties, each with a great character, Villae red is a differentiating batch, forming what we may call the “perfect marriage”! Tinta Roriz provides structure and muscle, Jaen highlights its natural strength, Alfrocheiro brings minerality and Tinta Pinheira demonstrates the aromas of the forest and the wood.

### 2020 HARVEST

From 08 September to 03 October

There was an early spring in the months of January and February. The technical team chose to delay the cycle, and pruned in March, thereby avoiding production losses due to the late April frosts that occurred in the Dão demarcated wine region. During the spring, there was above normal precipitation, which proved to be very positive in restoring the desired water levels in the soil and for perfect development of the remaining vegetative cycle. The summer was mild and cool, which enabled a very balanced maturation of the grapes, without water stress. This harvest proved to be generous in terms of the quantity and quality of the grapes. All the refined technical expertise and the capacity to know how to wait for the right moment, based on the search for the best natural balance of acidity/pH/sugars, combined with careful control of the phenolic maturation of the grapes. This has allowed us to create unique wines. The generous fruit, precision, complexity and concentration, combined with the elegance and fluidity of the musts, has enabled us to produce wines with a profile and richness that mirror this unique terroir.
